

BIKE BUILD

FOR TRACTION

Help young people get TRACTION | Be part of the CEO Bike Build

TRACTION, a not-for-profit community focused program that empowers vulnerable young people, will once again be hosting its CEO Bike Build in 2020. The event will see TRACTION graduates working together with corporate, private and public sector leaders in an environment of shared experiences, learning and a little bit of healthy competition.

The half-day experience will pair up organisational, industry and public sector leaders ("CEO participants") with TRACTION graduates to assemble a new bicycle together, but with a twist!

The TRACTION graduate will play the lead role, guiding CEO participants through the bike build process. They will work together to get the job done, and along the way share experiences, build rapport and build relationships across generations.

At the completion of the event, the bikes will be donated to a community group in need.

To enter the CEO Bike Build, CEO participants &/or the organisations they represent are expected to commit a minimum of \$5,000 for TRACTION.

EVENT DETAILS

Date: Friday 11th September 2020

Time: 9am – 1pm

Where: TRACTION Workshop at Q Block, Alexandra Hills

(Map and directions attached)
